- Fast Cybersecurity sales growth drives 1H22 performance. Sales grew by +67% YoY to €5.8mn, more than matching the expected rapid expansion in 1H (Intermonte est. €5.7mn/+65%) and even coming 9% above the 2H21 level. This highlights the strength of CYB's growth momentum in our view: as a reminder, the typical seasonality of the business concentrates most commercial development in 2H/4Q. Cyber-security was the main growth driver as expected, at €3.6mn/+192% YoY, driven by the strong commercial growth of the cyber security suite: c.100 new clients added with a growing average contract size. Managed Services remained almost flat at €2.1mn/-2% YoY. Value of production was €6.7mn, up +50% YoY (vs Intermonte est. €6.6mn/+48%) with capitalized R&D costs of €0.75mn, slightly below our estimate of €0.9mn.
- Positive trend in margins notwithstanding 1H seasonality. CYB reported positive margins across the board, clear progress from the negative EBIT and net income seen in 1H21. Despite the c.€1mn step-up in the fixed cost base compared to 2H21 (of which c. €0.6mn in additional staff costs), CYB's 1H22 EBIT of €0.9mn was superior to the 2H21 level of €0.8mn. EBITDA excl. capitalized R&D costs was €1.2mn, a 20% margin on sales (vs €-0.5mn/€1.5mn in1H21/2H21), beating our €0.9mn/15% margin forecast. Net debt of €0.82mn was up from FY21 (€0.27mn) as solid, positive operating cash flow of €1.1mn was offset by CapEx (€1.3mn) and the share buyback program (€0.35mn).
- Growth to accelerate in 2H, resumption of expansion abroad. CYB targets growth accelerating in 2H22 relative to 1H. CYB indicated that its pipeline offered good visibility on achieving this growth trajectory as we now enter the high season (4Q is the busiest period for commercial activity). Price increases may further support this trend, enabled by: i) product innovation (launch of Cypeer Sonic, with the price tag up 20%); and ii) an increasing share of larger mid-sized companies in the client base (coincidental with higher pricing). Other indications for 2H included: i) staff costs to increase only slightly in 2H; ii) R&D spend and CapEx to remain broadly steady (from €0.75mn/€1.3mn in 1H respectively). CYB has also resumed its expansion activities in the DACH region, where it targets onboarding 3 to 5 partners during 2H, with a contribution to sales growth targeted from 2023 onwards.
- Growth profile confirmed, EPS slightly reduced on a higher tax rate. We confirm our growth forecasts though we re-balance our mix, enhancing Cybersecurity (growing client size in 2022, international expansion in 2023) and reducing Managed Services. The slight reduction in EPS (-4%) reflects the higher tax rate, as seen in 1H.
- BUY rating confirmed, TP €5.5 (from €5.2). 1H22 results again show the solid execution of CYB's growth strategy, enhancing visibility on our FY22 forecasts. The combination of the expected growth acceleration in 2H with the steadier cost base may potentially (finally) unlock a healthy level of operating leverage, enabled by the scalability of CYB's MDR offering and enhanced automation capabilities at SOC level. The change in our TP reflects: i) the roll-over of our multiples-based valuation to base our TP solely on the 2023 multiples which, for reasons of prudence, we reduce by c.-10%, coherent with our approach across our cybersecurity coverage (€+0.5 p.s.); and ii) our slightly lower EPS estimates (€-0.2 p.s.).

We have rolled-over our multiples-based valuation to now base our TP solely on FY23 multiples. Our valuation uses an average of the implied valuations obtained using the following multiples:

multiples of 3.2x EV/sales, 8.5x EV/EBITDA, and 13x P/E based on our 2023E forecasts.

Note that these values represent a 10% reduction to the 2023 EV/sales multiple and a c.15% reduction to the previous 2023E EV/EBITDA and P/E multiples we used to value the stock. These adjustments to the arbitrary multiples used have been done in order to at least partly reflect the de-rating of the cyber sector amid rising interest rates.

The implicit 2023E multiples reflected by our €5.8 TP for CYB are aligned with the current sector multiples for Italian peers in terms of EV/EBITDA and PE.

Source: based on Intermonte SIM estimates for Cyberoo, Cy4Gate, Tinexta and WIIT, FactSet consensus estimates for the other companies - CYB multiples as follows: EV/Net Sales, EV/ Adj. EBITDA, Price to Adj. EPS

We have adjusted the Peer Group used in our analysis as follows:

i) Bucket 1 (International peers):

- a. Out: Fortinet, Palo Alto Networks, Check Point Software and Trend Micro (size mismatch)
- b. In: Rapid7 and Darktrace (better match for MDR activities)
- c. Kept: European peers NCC Group and WithSecure
- ii) **Bucket 2 (Italian peers)**: addition of Sababa, justified by the similarity between the activities of CYB's Cyber Security Suite and Sababa's Security Monitoring operations. We have removed WIIT.

Intermonte

Cyberoo in Brief

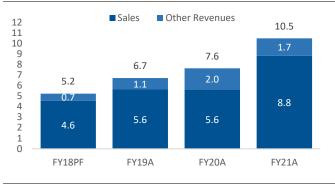

Company description

Founded in 2008, Cyberoo is a provider of managed detection and response (MDR) cybersecurity solutions and a managed service provider in the IT outsourcing segment. The company is part of the SEDOC group and has been listed on the AIM segment of the Italian stock exchange since 7th October 2019. Cyberoo serves corporate clients in Italy through a network of over 26 distributors and has recently opened up in France, Germany, and Austria. It employs over 125 people across Italy and the Ukraine.

Strengths/Opportunities

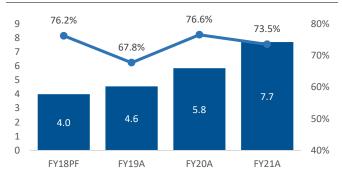

- Extensive national distribution network through partnerships
- Industry recognition of CYB's MDR offering (Gartner)
- Recurring revenue model
- Growing demand for MDR/MSP from Italian SMEs
- Scarcity of Italian cybersecurity professionals
- Advanced AI capabilities

Shareholders

Weaknesses/Threats

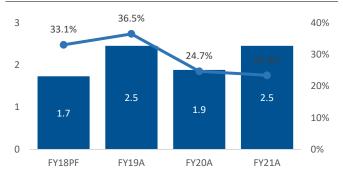

- Small in size compared to large international players
- Conservative accounting of commercial discounts
- Crowded Italian IT outsourcing market
- Significant exposure to the Ukraine
- Relationship with parent SEDOC is a potential source of conflict of interest

The analyst responsible for the report is <u>nuclear</u> and use proprietary equity presk in order to prevent connicts of interest when recommendations are made. The analyst responsible for the report is <u>nuclear</u> a resident of US; b) an associated person of a U.S. broker-dealer; c) supervised by a supervisory principal of a U.S. broker-dealer. This Research Report is distributed in the U.S. through Brasil Plural Securities LLC, 545 Madison Avenue, New York 1002.

GUIDE TO FUNDAMENTAL RESEARCH

The main methods used to evaluate financial instruments and set a target price for 12 months after the investment recommendation are as follows:

Discounted cash flow (DCF) model or similar methods such as a dividend discount model (DDM)

Comparison with market peers, using the most appropriate methods for the individual company analysed: among the main ratios used for industrial sectors are price/ earnings (P/E), EV/EBITDA, EV/EBIT, price /sales. Return on capital and multiples of adjusted net book value are the main methods used for banking sector stocks, while for insurance sector stocks return on allocated capital and multiples on net book value and e value and embedded portfolio

value are used For the utilities sector comparisons are made between expected returns and the return on the regulatory asset base (RAB) Some of the parameters used in evaluations, such as the risk-free rate and risk premium, are the same for all companies covered, and are updated to reflect market conditions. Currently a risk-free rate of 2.5% and a risk premium of 5.0% are being used. Frequency of research: quarterly.

Reports on a location parter is the second parter is published at least once per quarter to comment on results and important newsflow. A draft copy of each report may be sent to the subject company for its information (without target price and/or recommendations), but unless expressly stated in the text of the report, no changes are made before it is published at least once per quarter to the subject company for its information (without target price and/or recommendations), but unless expressly stated in the text of the report, no changes are made before it is published at least once per quarter to the subject company for its information (without target price and/or recommendations), but unless expressly stated in the text of the report, no changes are made before it is published at least once per quarter to the subject company for its information (without target price and/or recommendations), but unless expressly stated in the text of the report, no changes are made before it is published at least once per quarter to the subject company for its information (without target price and/or recommendations), but unless expressly stated in the text of the report, no changes are made before it is published at least once per quarter to the subject company for its information (without target price and/or recommendations), but unless expressly stated in the text of the report, no changes are made before it is published at least once per quarter target price and the text of the report at least once per quarter target price at l Explanation of our ratings system:

BUY: stock expected to outperform the market by over 25% over a 12 month period;

DUTPERFORM: stock expected to outperform the market by between 10% and 25% over a 12 month period; NEUTRAL: stock performance expected at between +10% and – 10% compared to the market over a 12 month period; UNDERFERFORM: stock expected to underperform the market by between –10% and -25% over a 12 month period; SELL: stock expected to underperform the market by over 25% over a 12 month period;

Prices: The prices reported in the research refer to the price at the close of the previous day of trading
