

PRESS RELEASE

CYBEROO STRENGTHENS ITS PRESENCE IN UKRAINE: AGREEMENT SIGNED WITH TERNOPIL UNIVERSITY

Milan, 5 December 2019 - Cyberoo S.p.A. (the "Company" or "Cyberoo"), Innovative SME specialized in cyber security for businesses, announces that today a strategic partnership agreement has been signed with the University of Ternopil, Ivan Puluj National Technical University of the Ministry of Education and Science of Ukraine.

It represents the main technical higher education institution with a broad Cyber Security Department aimed at preparing qualified professionals in IT security.

Cyberoo agreed with the University on a well-structured and innovative training course, with a strong investment on the human resources involved: in accordance with the programs and topics shared with the University, Cyberoo has made itself available for the offering of internships and contests for scholarships to students, to facilitate their placement in the world of work. In this way, Cyberoo is able to access the selection of the best human resources, guaranteeing an exponential growth in the field of specialized skills for Cyber Security and allowing the university system to keep up with the ever faster evolutions of the market itself.

In this context Cyberoo, firmly and deeply rooted in the Ukrainian territory, ranks among the main partners of the University of Ternopil, joining other major players in the IT market such as Cisco and IBM.

Fabio Leonardi, CEO and co-founder of Cyberoo, commented: *"Cyberoo and the University of Ternopil act in the joint development of their scientific and innovative potential in order to consolidate the information technology and Cybersecurity sector. Our aim is to support the career of employees and for this reason we are committed to the educational and methodological growth of students, as well as their complete job training. It is an experimental and ambitious project, not yet implemented in Italy, that confirms Cyberoo as an avant-garde, open, innovative company which emphasizes values such as meritocracy, inclusion and relationship "*.

Cyberoo S.p.A.

Cyberoo is an Emilian Innovative SME specialized in cyber security for businesses, intended not only as protection of IT systems from external attacks but mainly as the creation of a real strategy capable of protecting, monitoring and managing the information of the IT ecosystem.

Cyberoo addresses the medium-sized market with a broad and deep portfolio of enterprise solutions, developed through the usage of the most advanced technologies and with a value chain that allows to offer to the market prices in line with spending capacities.
