To the annual contract, worth a **total of 36 thousand euros** (gross of the distributor's fees), are added additional 3 months of free use provided by the **Defense For Italy** plan, the initiative promoted by Cyberoo in support of Italian companies on the occasion of the recent lockdown due to the Covid emergency.

***Veronica Leonardi**, Cyberoo Executive Board Member and CMO said: "Cyber security does not go on vacation. We are at work and we look forward with confidence because IT security is increasingly essential, especially considering the frequent use of smart working following the pandemic. It is also for this reason that investments in the sector are constantly growing. The new contract testifies once again to the consolidation of our presence on the mid-large enterprises market, in addition to the effectiveness of the solutions and our business model, based on strategic partnerships with distributors. Model, which we are sure will still be a harbinger of new customers".*

Cyberoo's Cyber Security Suite is a **highly innovative service to protect companies from any type of cyber-attack**, even the most sophisticated and including those remote connections typical of Smart Working. All in a single platform that uses artificial intelligence, Big Data and the expertise of a specialized i-SOC, for 360 ° security, 7 days a week, 24 hours a day.
