

PRESS RELEASE

CYBEROO NAMED AGAIN AS A “REPRESENTATIVE VENDOR” IN THE GARTNER MARKET GUIDE FOR MDR SERVICES

THE ITALIAN COMPANY CONFIRMS ITSELF AMONG INTERNATIONAL BIG NAMES IN ADVANCED CYBERSECURITY, THE ONLY ONE AMONG 12 EUROPEAN COMPANIES AND 50 WORLDWIDE

THE PRESTIGIOUS RECOGNITION OBTAINED, FOR THE SECOND TIME, THANKS TO THE QUALITY OF THE PROPRIETARY SUITE, THE NEW CYPEER SONIC SERVICE AND THE INVESTMENT IN AUTOMATIC REMEDIATION

Reggio Emilia, February 28, 2023 – **Cyberoo S.p.A.**, an innovative SME listed on the EGM market, specialized in cyber security for enterprises, consolidates its position among the leading international players in the Managed Detection and Response (MDR) services segment, first and only Italian.

The confirmation comes from Gartner Inc, a firm that delivers actionable, objective insight to executives and their teams. Its expert guidance and tools enable faster, smarter decisions and stronger performance on an organization’s mission-critical priorities. According to Gartner, Cyberoo is one of the 50 vendors named “*Representative Vendor*” providing MDR services listed in the “*Market Guide for Managed Detection & Response Services*”, the most authoritative international guide on advanced cybersecurity services. In this report, only 11 other European companies were selected in addition to those from the United States.

The Emilian SME's solutions therefore reflect all the requirements identified by Gartner, thanks mainly to the quality of the proprietary Cyber Security Suite, the new Cypeer Sonic Service, the service of the various ISOCs, and the investment in Automatic Remediation. According to Gartner, by 2025, 60% of organizations will be actively using remote threat disruption and containment capabilities delivered directly by MDR providers, up from 30% today.

*“It is important to have been included again in Gartner's Market Guide for MDR” said **Veronica Leonardi, Executive Board Member and CMO of Cyberoo.** “We have been offering an evolved service of monitoring and protection of the security perimeter through the solutions of our Cyber Security Suite for a long time. In addition, we also protect customers through specialized Threat hunting and Incident Response activities, and not only that, thanks to the new company Cyberoo Docetz. The fact that Gartner has recognized the value and comprehensiveness of our Cyber Security Suite solution, which has been further developed over the past few years, confirms and relaunches our market positioning. It is no coincidence that our solutions are increasingly appreciated and chosen in the most diverse sectors, from fashion to automotive.”*

In the cyber security market, Cyberoo is mainly positioned as an MDR provider, meaning it offers a 24/7 fully managed threat detection and mitigation service. The Cyber Security Suite is a highly innovative service to protect companies from all types of cyber attacks, even the most sophisticated ones. All in a single platform that leverages artificial intelligence, Big Data, and the expertise of a specialized i-SOC, for 360-degree, 24/7, h24 security. MDR services provide customers with modern Security Operations Center (SOC) capabilities delivered remotely to actively identify (Detection) and respond (Response) to threats.

“Gartner Market Guide for Managed Detection and Response Services”, published 14 February 2023 by Analyst(s): Pete Shoard, Al Price, Mitchell Schneider, Craig Lawson, Andrew Davies. You can read it at the following link: <https://content.cyberoo.com/en/cyberoo-named-gartner-mdr-market-guide-2023>.

Cyberoo S.p.A.

Cyberoo S.p.A., a company listed on the Euronext Growth Milan stock exchange of Borsa Italiana, is an innovative Reggio Emilia-based SME specialized in cyber security for businesses, intended not only to protect IT systems from external attacks but also to implement a real strategy capable of protecting, monitoring and managing IT ecosystem information. Cyberoo S.p.A. addresses the medium-sized business market with a broad and deep portfolio of enterprise solutions developed using the most advanced technologies and with a value chain that allows it to set prices that are in line with its customers' spending power.
